PH prepares feast of nutritious, tasty goods for Indusfood 2026

The stage is set for the Philippines' showcase of export-ready goods at Indusfood 2026, with four dynamic enterprises aiming to supply healthy food options primed for the Indian consumer.

Supported by the Department of Trade and Industry-Center for International Trade Expositions and Missions (DTI-CITEM), these Filipino companies are leading the charge to meet the growing need for premium, plant-forward goods. Their offerings include high-quality dried vegetable leaves, tropical snacks, crackers, and processed fruits. These items are produced under strict, responsible farming and processing protocols, evidenced by their attainment of global product safety and quality certifications.

These enterprises expertly leverage the Philippines' unique natural capital—from rich soil composition to its ideal tropical climate—to develop their world-class offerings. They will be presented under the FOODPhilippines banner—a CITEM industry brand promoting the Philippines as a strong sourcing destination for food exports derived from fresh and natural ingredients.

Indusfood is one of Asia's most prominent food and beverage trade shows. Launched in 2017, it offers a stage for businesses to connect with global buyers and heighten their visibility. Indusfood 2026 will be held from January 8 to 10, 2026 at the India Exposition Mart in Greater Noida, India.

Discover a gateway to premium flavors and healthy options. Visit the FOODPhilippines Pavilion at International Hall (Hall 1) at Indusfood 2026!

PH committed to global growth

In addition to supporting enterprises in overseas trade fairs, DTI-CITEM organizes the International Food Exhibition (IFEX) Philippines, the Philippines' largest business-to-business and export-oriented trade show for food, beverage, and ingredients. As the longest-running food sourcing event in the Philippines, IFEX Philippines spotlights premium products from across the regions and positions the country as a dependable supplier in the global market. Co-located within IFEX Philippines is the Sustainability Solutions Exchange (SSX) Exhibition and Conference, a platform that showcases innovations, facilitate knowledge exchange, and foster collaborative solutions that support the country's pursuit of a circular economy.
